

RepVac

Repair Kit

Faulty negative pressure lines made from rubber and hard plastic can be replaced with a modern negative pressure corrugated pipe with the repair kit. The following are included for repairs: straight and angled negative pressure connectors for corrugated pipe with a nominal width of 4.5 for connections with 3-4 mm and 5-7 mm, in addition to corrugated pipe connecting pieces. The assortment also includes fixing clamps, retaining clips and a 2.5-m-long corrugated pipe. The area of use ranges from passenger cars and commercial vehicles to motorcycles and construction machinery. Application examples include negative

pressure connections on: air filter boxes, distributors, MAP sensors, pressure control valves, central locking systems, etc. Advantages of the repair kit:

- universally compatible
- better protection against pine marten bites
- permanently flexible and durable
- smaller diameter than rubber lines
- Replacement for negative pressure lines from older vehicles which are no longer available
- emergency fix in the event of breakdowns
- cheaper than moulded hoses

Shape:	straight angled	Info:	with connecting pipe with adapter
Material:	EPDM (ethylene propylene diene Monomer (M-class) rubber) POM (Polyoxymethylene) Polyamid 6
