

Design change E2060L

We adapt our E2060L to the classic Hengst design of its forerunner E1060L01 with plastic cover and bottom. The new E2060L is of course also backwards compatible and can be installed in all Mercedes-Benz Actros MP4 and MP5.

Previous E2060L

New E2060L

Stocks of the old E2060L can of course still be sold for the vehicles listed in the catalogue.
