Image 2: Plastic tensioner and deflection pulley

In the front end accessory drive of the models specified above, Nissan and Renault fit two different versions of the tensioner and deflection pulley. The vehicles can be equipped with either a metal version (image 1) or a plastic version (image 2).

Schaeffler Automotive Aftermarket offers a tensioner and deflection pulley made from plastic for these models (image 2). This pulley meets all technical requirements in full and can be used without reservation.

The tensioner and deflection pulley made from metal can be replaced with one made from plastic without any restrictions.

Observe the specifications of the vehicle manufacturer!
