Deflection pulley 532 0471 10

Visual differences

Manufacturer: Ford, Jaguar

Models:

Ford: Mondeo, Transit

Jaguar: X-Type

Engines: 2.0 D, 2.2 D

Part no.: 532 0471 10

For current listing refer to catalogue media

As part of the on-going development of our products, deflection pulley 532 0471 10 has been modified.

In the previous design, the bolt is held in place with a yellow plastic retainer (Fig. 1). That retainer must be removed before installing the deflection pulley, but once it has been removed, the bolt could fall out.

The new design features a captive bolt that cannot fall out or be lost.(Fig.2). As a result, the deflection pulley will always be supplied with the bolt.

Both design configurations meet the technical specifications and can be used without restriction.

During the transition period, stocks may become mixed.
