

TECHNICAL INFORMATION ZM497 AND ZM1497

NEW SUITABILITY WITH VALEO 594449 AND ADAPTABLE TO STARTERS D6RA110

GENERAL INFORMATION

Our Supplier ZM, during range improvement, has changed the solenoid [ZM497](#) drawing.

Old version

New version

The most visible change (red circles) is the double facet on the body in order to get easy the placement on the specific starter bracket.

The main goal was enlarge the application list to starter Valeo [D6RA110](#), without open new project.

The result has been obtained with two versions:

- [497](#), solenoid without plunger
- [1497](#), solenoid with plunger

Perfect suitability to Valeo solenoids [594181](#), [594449](#).

Perfect adaptability on Valeo starters [D6RA37](#), [D6RA51](#), [D6RA57](#), [D6RA110](#), [D6RA511](#), [D6RA571](#).
