

# VCF341

## Cabin Filter Location

### Makes/ Models

Filter Type: Carbon

#### MINI

Mini Mk1 (2001->2006)

Difficulty: Easy  
Time (Approx) 5 Mins

1. The filter is located underneath and behind the glove compartment.
2. Loosen the screws that hold the cover and allow the guide chamber to move downwards.
3. Remove the old filter and ensure the new filter is firmly in the guide chamber before closing.
