

VCF378

Cabin Filter Location

Filter Type	Standard
-------------	----------

<u>Mitsubishi</u>	
Galant Mk6	(4/96->03)

Time (Approx)	20 Mins
Difficulty	Medium

1. The cabin filter is located behind the glove compartment.
2. Remove the glove compartment by unhinging the drawer and removing the various extra parts to expose the fittings behind it.
3. The filter chamber is located behind the metal bar.
4. Unscrew the filter cover (1 screw below bar, the other above) and gently pull out the old filter.
