PUMP DESIGN VARIANTS

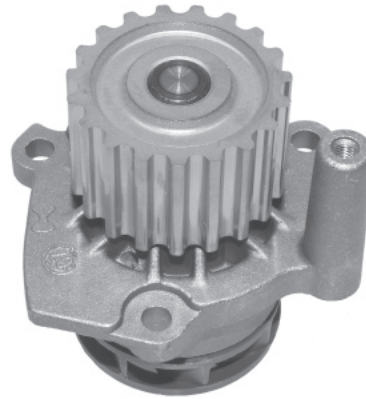

There are a number of pump design variations which may look similar but in fact have significant differences which could affect vehicle efficiency.

All of the Water Pumps below have a 19 tooth pulley but differ in body shape and impellor design.

FWP1933

Rounded Body - 63mm dia. 7 vane Impellor

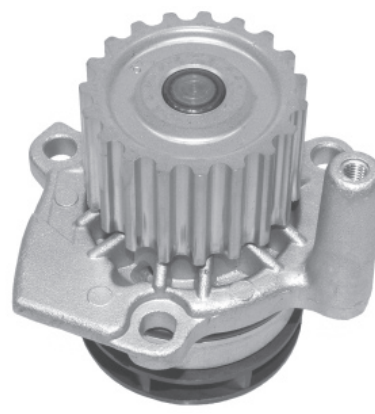

FWP1934

Square Body - 60mm dia. 8 vane Impellor

FWP2005

Square Body - 59mm dia. 8 vane Impellor

FWP2068

Square Body - 64mm 7 vane Impellor
