

NORMACLAMP® CC

Best-in-class clamp for trucks to produce constantly sealed joints in charge air applications

- ✓ Extremely high clamping force thanks to omega-profile shaped band design with double sealing lines
- ✓ Low weight as the spring function is included in the omega profile
- ✓ Uniform radial distribution of the clamping force

-  Air Intake & Induction
-  Exhaust Systems
-  Cooling Systems
-  Fuel & Oil Systems
-  Turbocharger Installations
-  Fixing & Retaining

NORMACLAMP® CC

Note:
D-D refers to clamping range.

Applications

CC clamps are used in trucks to produce airtight joints in charge air applications under extremely high temperature and pressure variations.

Materials

Group	W3
-------	----

Part number	Description	Clamping range (mm)	Packaging quantity (pcs)
0596 6001 072	CC 70-72	70-72	100

0596 6000 134	CC 132-134	132-134	100

More benefits

- ✓ Mechanical joints with rivets ensure no intracrystalline corrosion
- ✓ Low leakage rate due to high surface pressure, even under extreme temperature and pressure conditions

NORMACLAMP® CC is part of a broad portfolio. Discover more!
